## ITALIAN Salon LK Creamcolor INTRO

LK Creamcolor is premium quality. The choice of professional stylists throughout the world for over 25 years. Lisap's research laboratories constantly review LK to ensure that it is always state-of-the art and easy to use. A guarantee that LK will constantly outperform the aspirations of the many thousands of professional stylists and technicians who use it daily, enabling them to produce wonderful results for their clients. The LK Creamcolor Natural Shades, safely and perfectly cover white hair and have lasting resistance to fading. Easy to mix and apply, LK covers 100% with maximum uniformity. The 00/3 series give intense coverage & neutralize the ash tendencies associated with predominantly grey/white hair.

## MOOR MUD FOR EVERYONE

Torf Single-foment System offers a simple way to administer moor mud pack treatment without the requirement of facilities and equipment typically associated with it. While the system is not intended for a reduction body wrap, it offers the same curative effects as standard (loose) moor mud packing in much cleaner and less laborious way. The system consists of a Single-foment moor mud detox pack and a matching heat pack (heat carrier). The key component is a unique single use moor mud pack - a layer of an organic moor mud (balneo peat from the Czech-Republic) sealed between permeable membrane and leak-proof plastic sheet. The membrane allows for contact between skin and mud, yet prevents mud to stick to skin. The system is designed to deliver constantly increasing heat to the treated area for a the length of physiotherapy treatment (~20 min.). After application the pack is easily removed and skin can be cleaned with just a towel. Thanks to its simplicity, the labor requirement (as well as training) is minimal.

Application of the moor mud

The Permeable membrane makes contact with skin allowing for the moor mud to extract the toxins from the body

# SILIS Italian Chemical Straightening System

For straightening with hot or cold procedures, permanent or temporary. It contains sericin, a silk protein with a structure similar to that of hair. During application of the cream the sericin envelopes each strand in a protective moisturizing film that safeguards its structure. In addition, SILIS straightening cream is enriched with olive oil derivatives that polish and lubricate the hair stem, restoring the lipid balance. The result is delicate professional straightening that is effective and long-lasting.

Available in two strengths:

1-BASIC, for fine hair.....\$17.95<sub>reg 24.95</sub>

2-STRONG, for resistant hair..\$17.95<sub>reg 24.95</sub>

# BIOSCAL®

The ultimate product for hair and scalp treatment

Product Information and pricing

## BIOSCAL Hair Energy Concentrate

✦ This is the cornerstone of the treatment program. This concentrated formulation cleanses foreign matter from the hair follicles, making way for healthy hair. When used regularly and according to directions, it is extremely effective for both men and women to treat itchiness, flakiness, thinning hair, oil imbalances, over-processed hair and lifeless, brittle or weak textured hair. The application of the Bioscal Hair Energy Concentrate is simple and economical to use. To maximize long term results, however, it is essential to include appropriate Bioscal support products in the regime of total hair care.....**\$19.95 60ml**

## BIOSCAL Hair and Scalp Revitalizer

✦ Bioscal Hair and Scalp Revitalizer is a leave-in treatment that is applied after and between shampoos for around-the-clock protection. Nourishing as it grooms, Bioscal Hair and Scalp Revitalizer also controls dandruff, relieves itchiness and adds body and sheen without being greasy. Dull and damaged hair is revitalized and manageability is restored. It is especially effective in controlling psoriasis and eczema.....**\$15.95 375ml / \$29.95 1000ml**

## BIOSCAL Normal-to-dry Shampoo

✦ Bioscal Nutrient Shampoo for Normal Hair is a highly effective deep-pore cleanser containing emollients related to those produced by the scalp itself. It gently cleans as it protects the scalp and hair. While it was developed to increase the effectiveness of the Bioscal Hair Energy Concentrate and Revitalizer, Bioscal Nutrient Shampoo can be used on its own by every member of the family. It is free of colour additives and contains no cholesterol or lanolin, nor will it disturb the natural pH level or biological balance of the scalp and hair. It protects the scalp and softens the hair providing spring and bounce plus a natural sheen. It's delightfully light pomegranate fragrance leaves a feeling of cleanliness and well-being. ....**\$14.95 375ml / \$28.48 1000ml**

## BIOSCAL Special Shampoo

✦ Moisture Rich Shampoo for Chemically Treated Hair has a relatively low pH(5.5-6.5) that softens the hair by preventing swelling of the hair shaft normally associated with chemical services. Further, the formula contains Heliogenol which reduces hair colour fading, repairs UV damage and protects the hair against free radicals, and Fruitbio, a complex of fruit acids associated with green tea which helps to smooth the hair cuticles.....**\$14.95 375ml / \$28.48 1000ml**

## BIOSCAL Oily hair Shampoo

✦ Unlike medicated shampoos that contain harsh substances such as zinc pyrithione or celenium sulfide as their active ingredients, Bioscal Ultra Clean Scalp Shampoo is perfectly pH balanced and biodegradable. Fresh and fragrant Bioscal uses "Active Complex SSP-293", a mixture of natural ingredients that effectively control flaky dandruff conditions and scalp disorders without damaging the hair.....**\$14.95 375ml / \$28.48 1000ml**

## BIOSCAL Conditioner

✦ Bioscal Moisture Lock Conditioner revives limp, dull and lifeless hair in just minutes, as it restores the hair's elasticity and protects against chemical damage, dry scalp and hair. Freshly fragrant, it detangles and eliminates static and fly-away hair, yet will not strip colour or leave any harmful coating on the scalp, allowing it to breathe and grow naturally.....**\$14.95 375ml / \$28.48 1000ml**

# ZENIUS

The only machine you need  
is one that suits your business needs

- EASY CAPSULE INSERTION AND COFFEE PREPARATION (RISTRETTO / ESPRESSO / LUNGO / HOT WATER)
- HIGH PRESSURE PUMP (16-19 BAR PRESSURE)
- POWER RATING (IN WATTS) : 1560-1860
- DIMENSIONS (W X D X H)(IN) : 7.5 x 12.3 x 15.7
- WEIGHT (LBS) : 15

# Why buy from SAMCO?

It's a fair question...a question that you should ask as a responsible purchaser. Here are just a few reasons:

-We are without a doubt one of the most eco-friendly beauty suppliers in the nation. We package all shipments from reusable materials that the airline industry discards. We have their excess cardboard and packaging materials shipped to us to be reused rather than end up in the landfills.

-You can register on our website to view our current specials online to reduce paper consumption and reduce the impact on the environment.

-We honor the full warranty of our products...other companies actually expect you to ship your defective products to the manufacturer which can be as far as China or even further even if the item has a 1 year warranty. At Samco, we are much more reasonable...we offer over-the-counter exchange/or repair for the full term of the warranty right here at our warehouse in BC. The sooner you are able to get back to work the happier you will be with Samco...common sense. Other distributors get a price break on products to reduce the term of the warranty...not here at Samco.

-We can ship anywhere in the world using Canada Post.

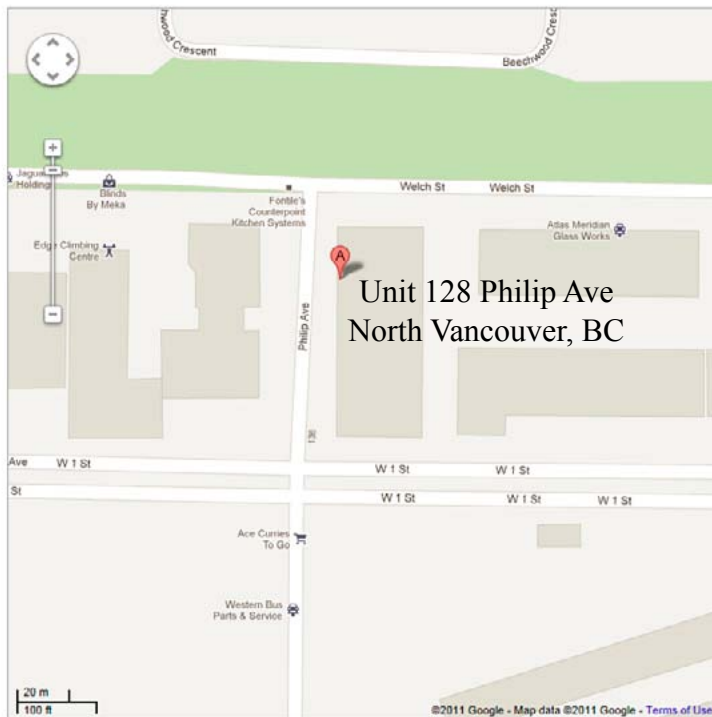

-We have furnished hundreds of Salons and Spas and we carry over 3000 different items!

-We purchase from Canadian manufacturers as often as we can to support the Canadian economy and keep our people employed. Without a doubt, we purchase more from the national economy than any other distributor.

The list can go on and on but we hope that you will give us a chance to supply you with whatever you may need to help you stay a productive professional in this wonderful and creative industry of ours...
